

Embryonale Ontwikkeling van het Hart

“ Van evolutie tot kliniek”

Y.J. Taverne

Cardiale Morfologie – ERCATHAN

Afdeling Anatomie – Afdeling Cardiothoracale chirurgie

Erasmus MC Rotterdam

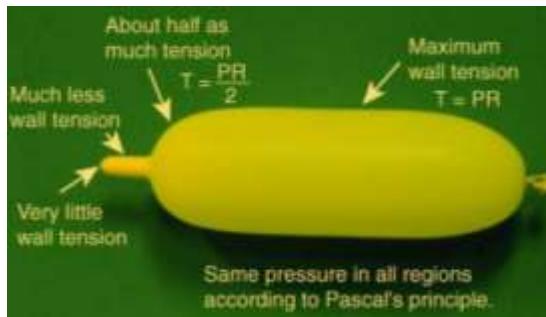

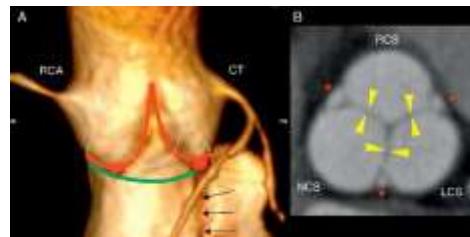

Bouwpakket hart

Functionele anatomie

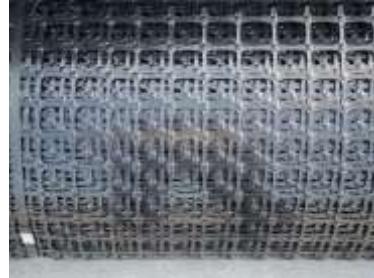

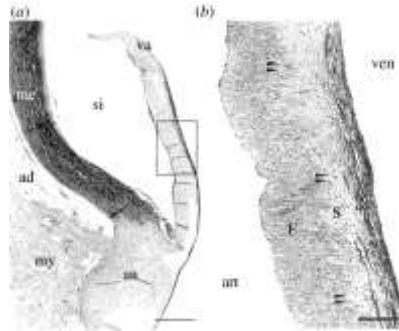

- Organogenese = grootste en langste experiment
 - Alle informatie is er → vraagstelling en het begrip
- Taal vanaf functionaliteit naar morfologie = fysica
 - *"What we observe as material bodies and forces are nothing but shapes and variations in the structure of space".*

Erwin Shrodinger

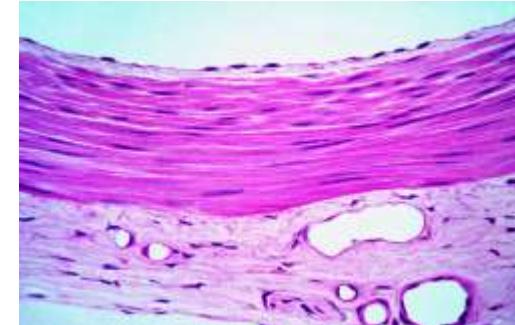

Evolutie functionaliteit

- Hart = functionele entiteit
 - Fundament = transmissie E
 - Variabelen = $V \sim R \sim F \sim P$

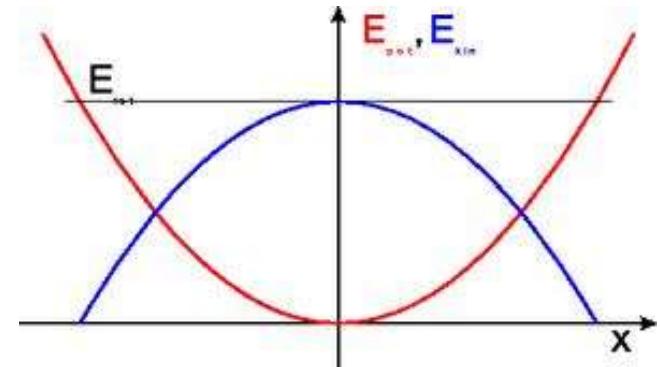

Energie

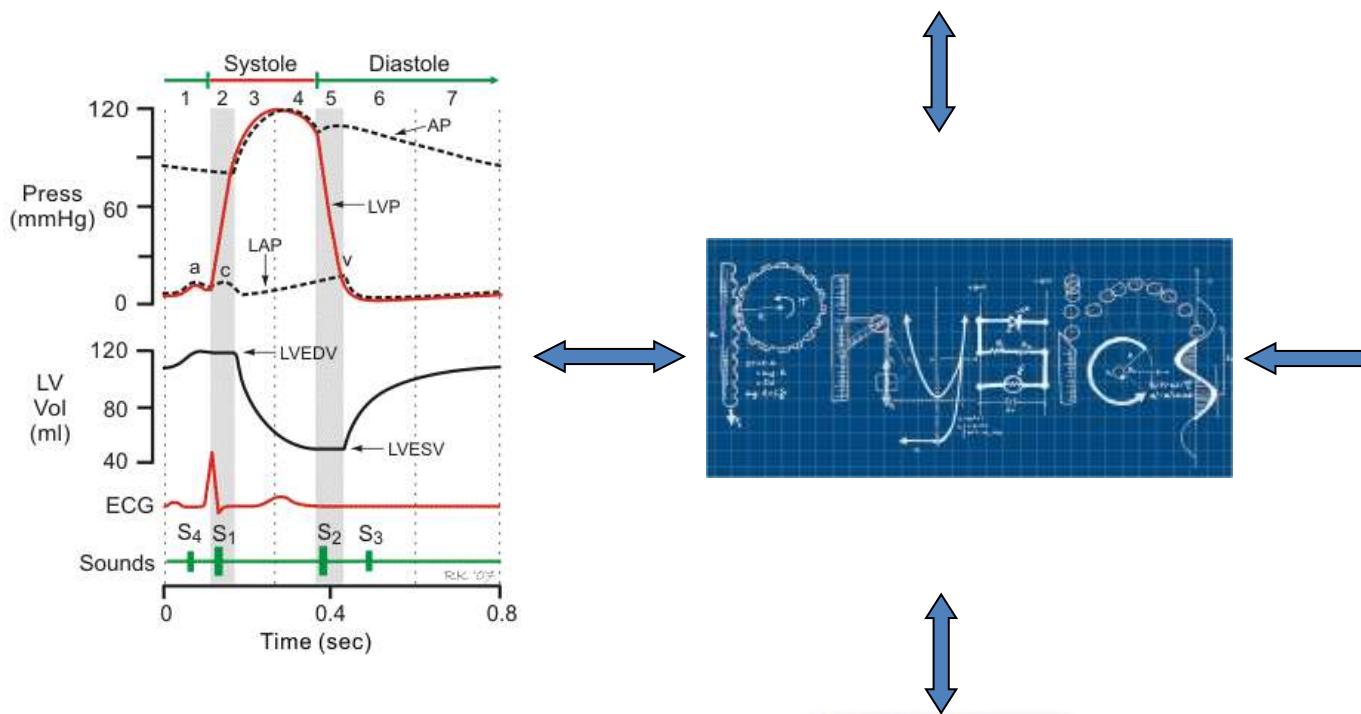

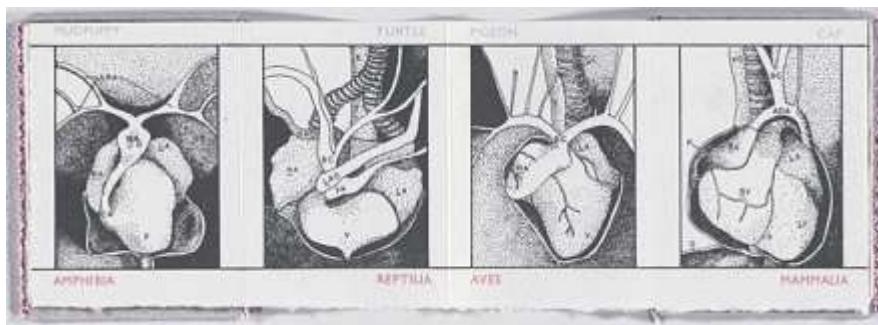

Evolutie functionaliteit

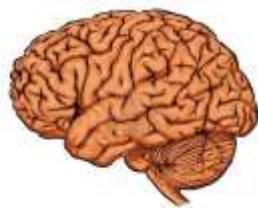

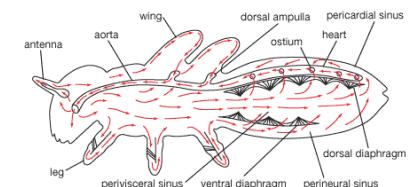

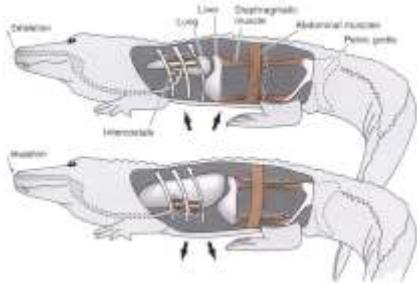

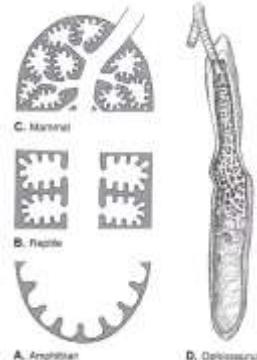

- RR = Potential Energy
- BF = Kinetic Energy
- HF = Pulsatility

- RR = CO x HF
- CO = SV x R perif
- SV = contractility / preload / afterload

Evolutie

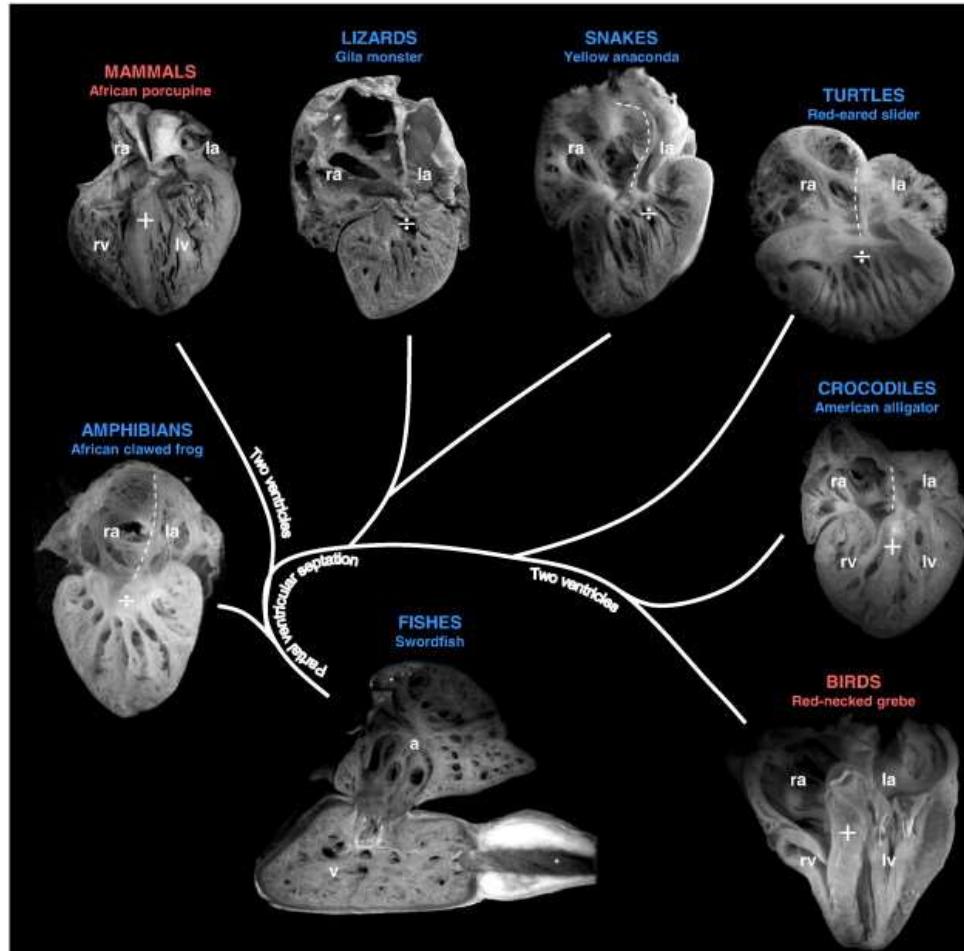

Evolutie

- Evolutionary point of view:
 - reptiles = critical moment evolution heart
- Birds/ mammals: 4 chambers
- Reptiles: 3 chambers
- Invertebrates: blind ending system (tube)
- Evolution from 3 → 4 chambers
 - Reptiles= ‘continuum’

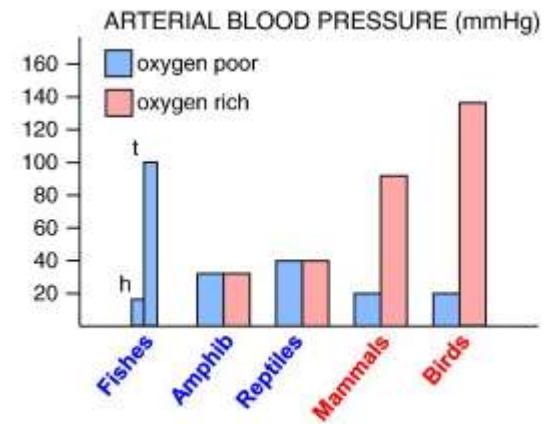

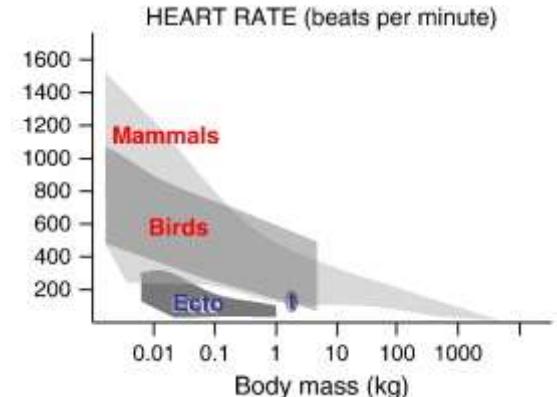

Koshiba-Takeuchi K. Nature 2009

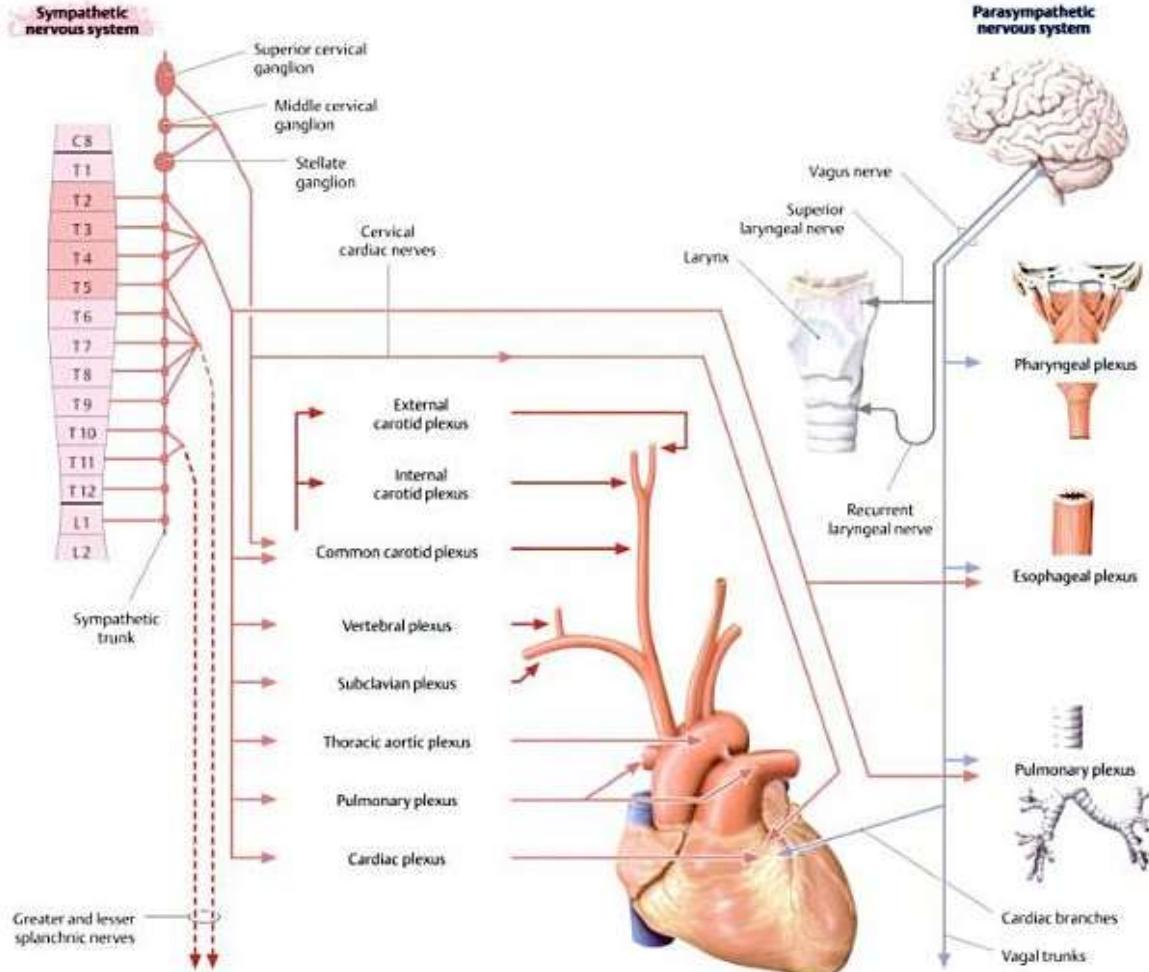

Evolutie

Jensen B. *Biochim et Biophys Acta* 2013

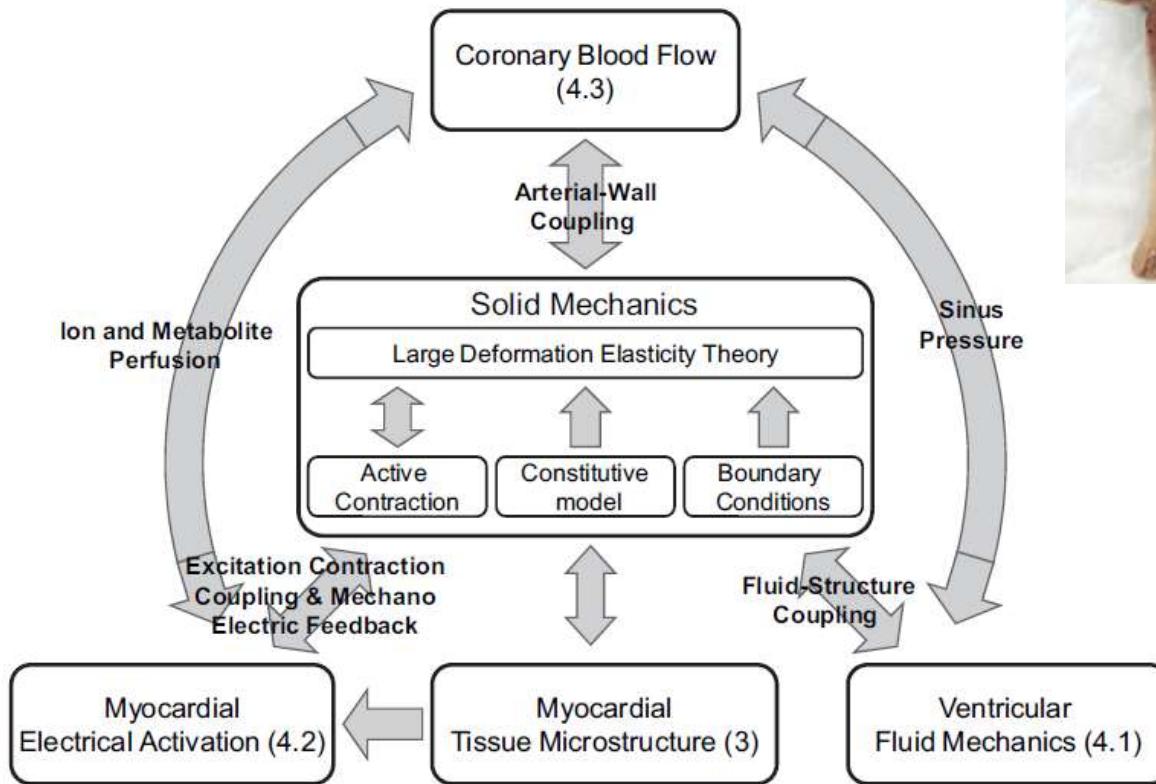

Evolutie - omgevingsinvloeden

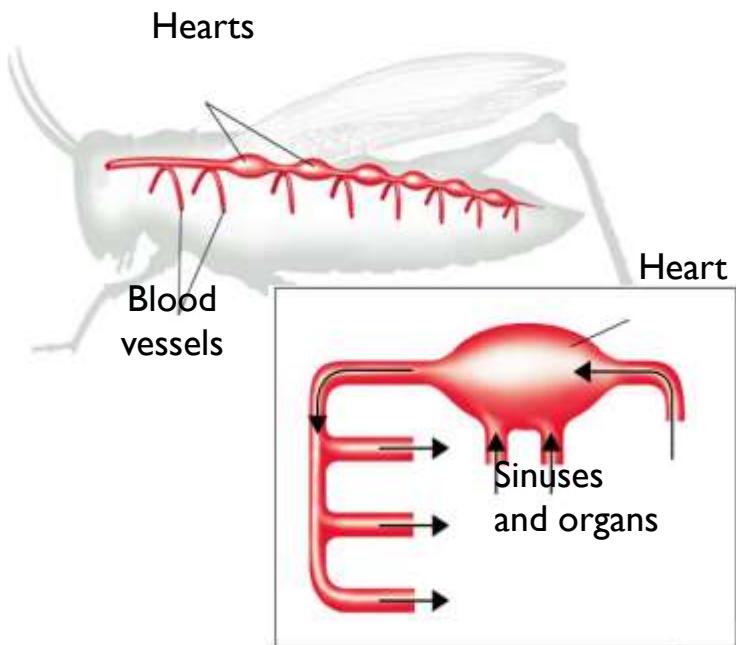

Evolutie - organogenese

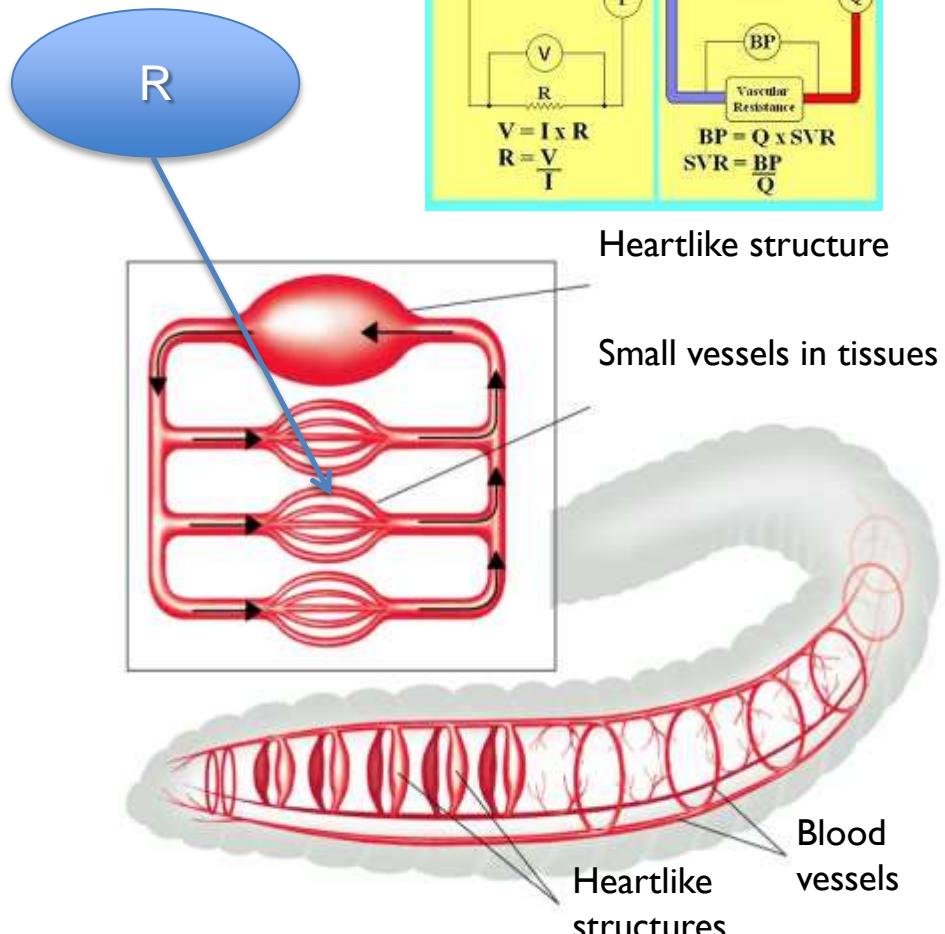

- Organogenesis

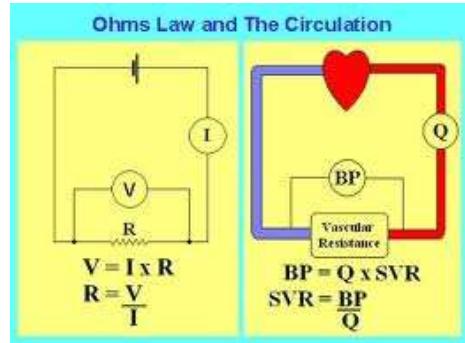

Blood flow

Insect:
Open Circulatory System

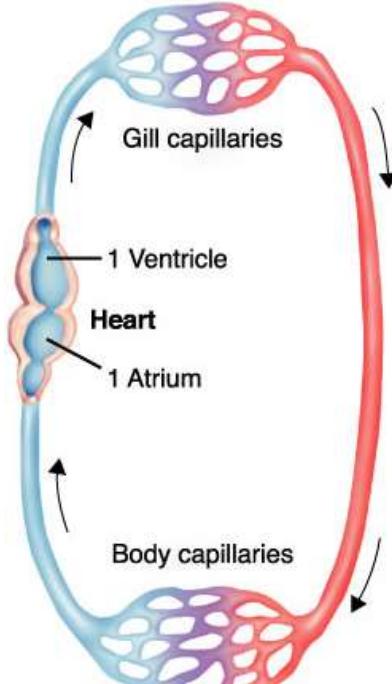

Annelid:
Closed Circulatory System

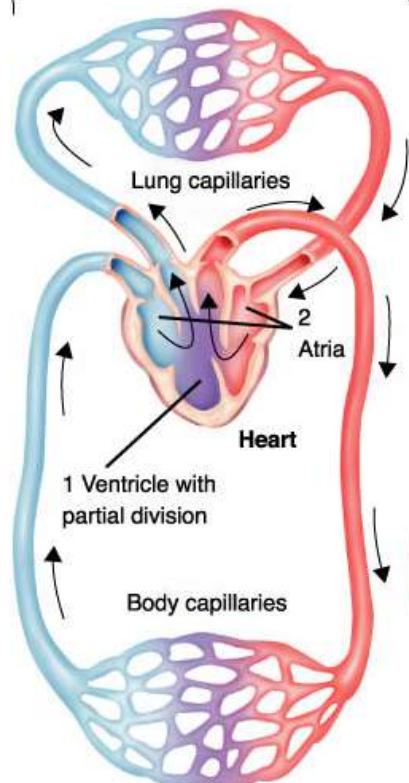

Blood flow

Single-Loop Circulatory System

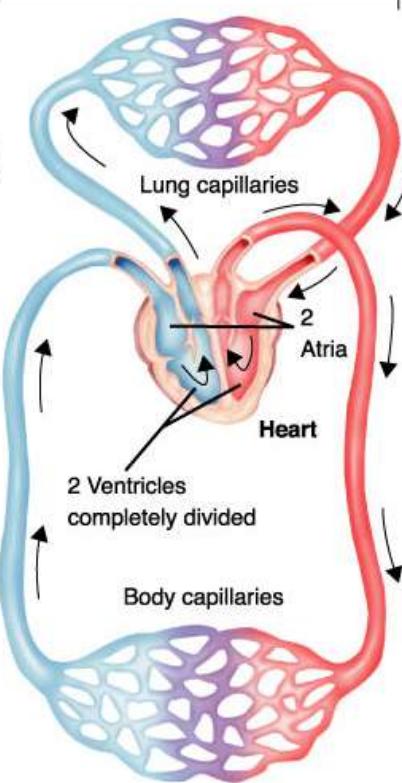

FISHES

Double-Loop Circulatory System

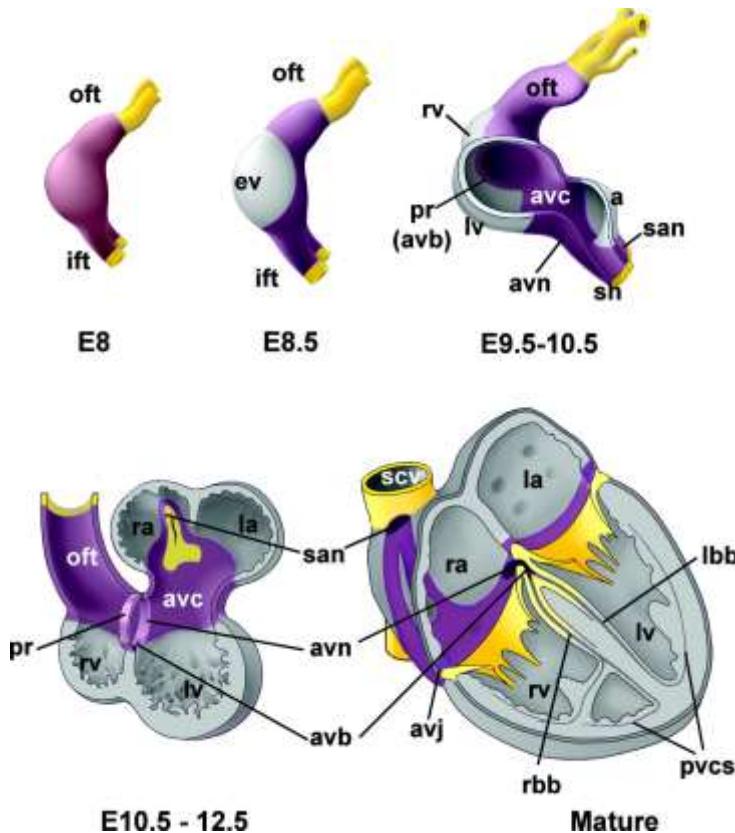

MOST REPTILES

CROCODILIANS, BIRDS,
AND MAMMALS

Traits of distant ancestor ?

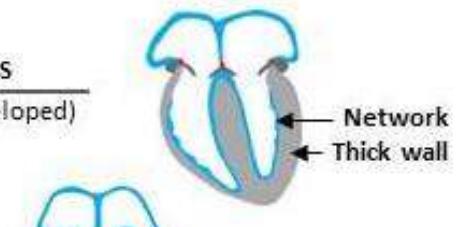

“ontogeny recapitulates phylogeny”

Typical embryonic heart
from a vertebrate

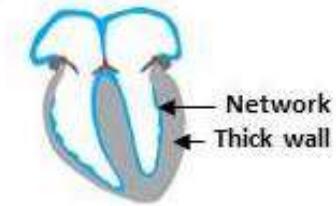

BIRDS

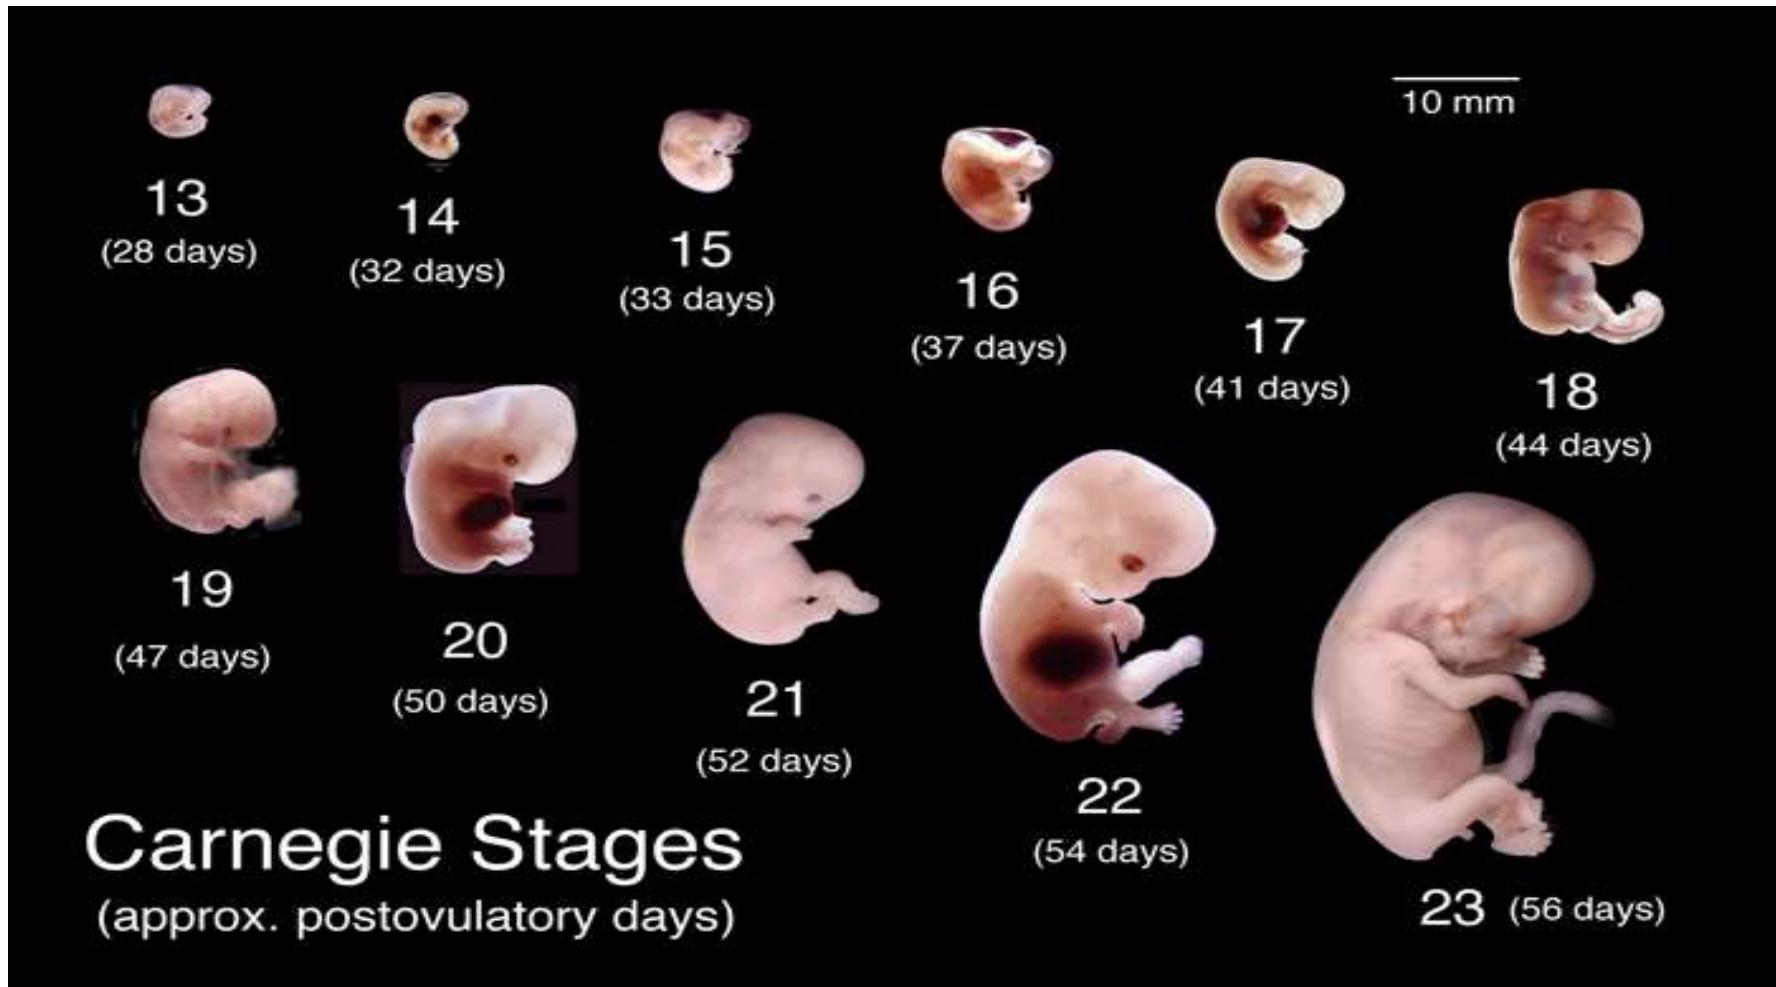

REPTILES
(fully developed)

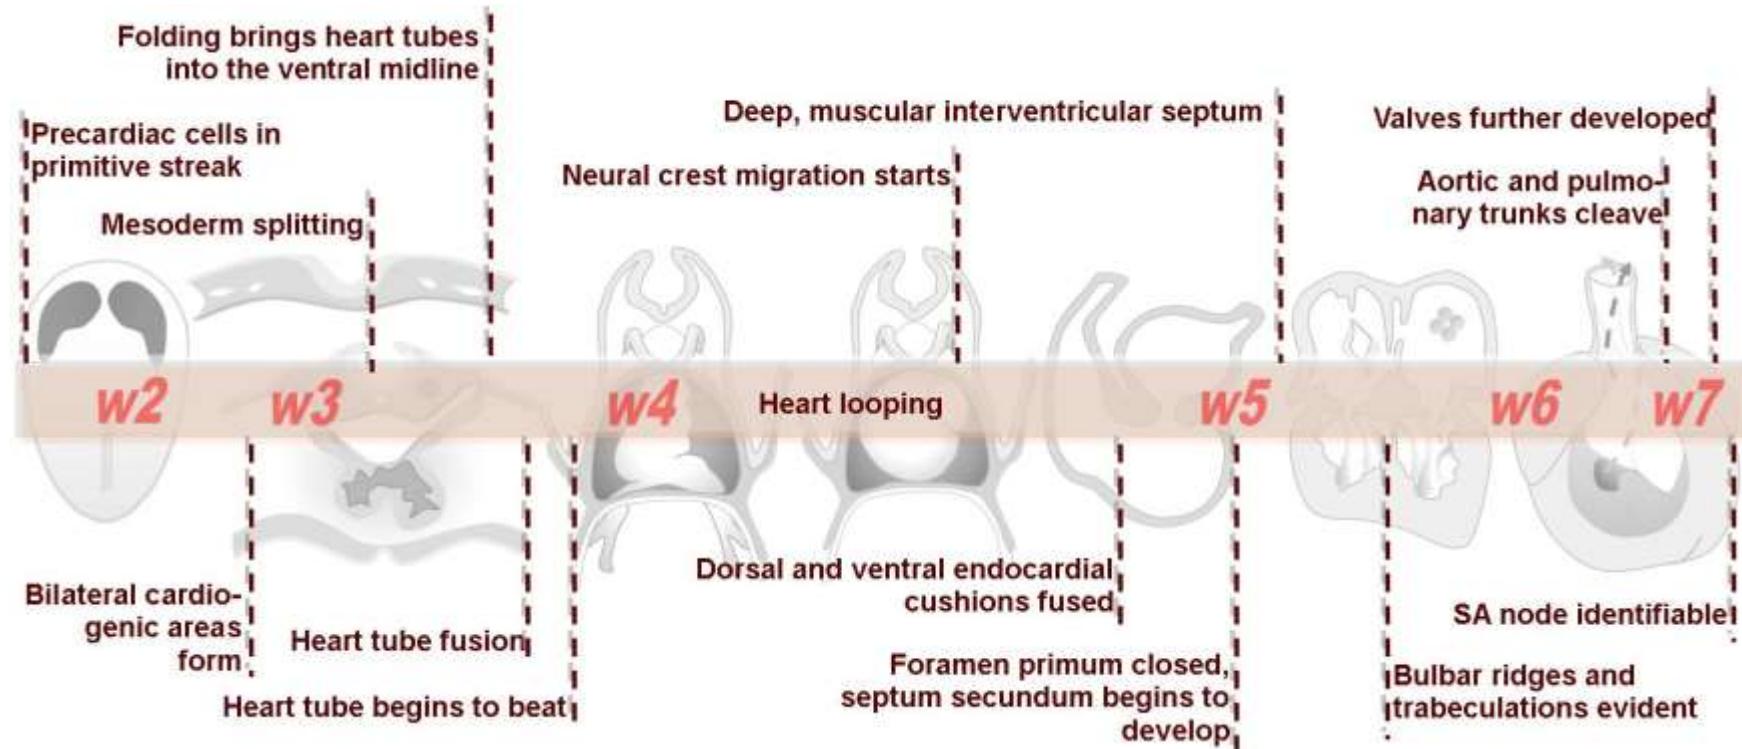

MAMMALS
(fully developed)

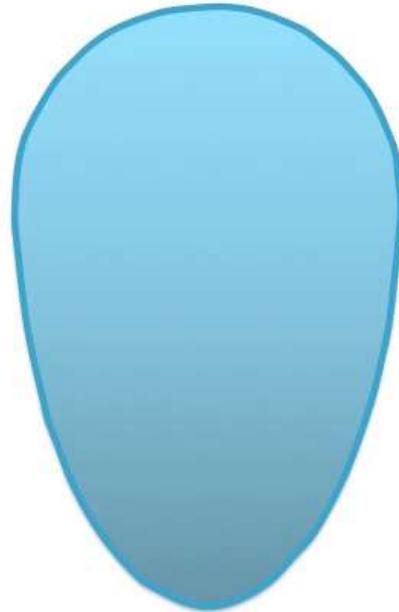

Embryologie

Embryologie

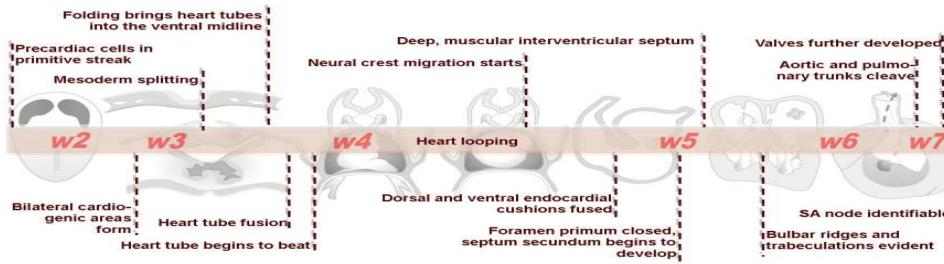

Heart fields

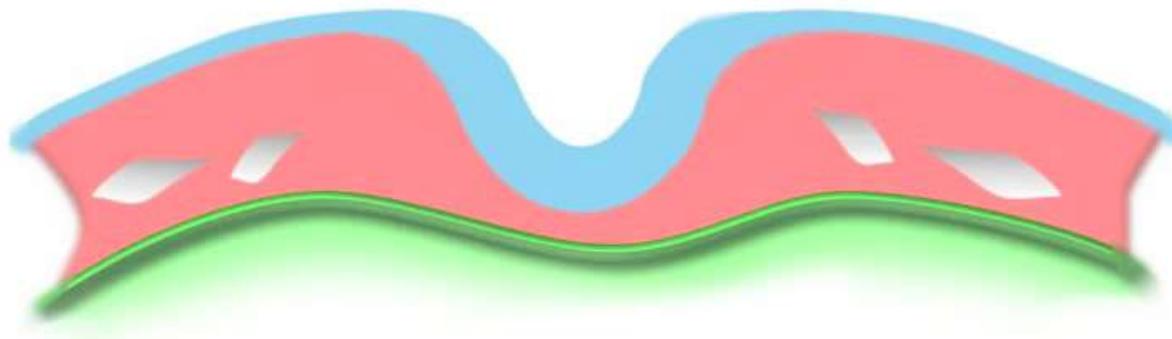

Epiblast
18 days, dorsal surface

UNSW Embryology

Endocardiac heart tubes

Folding and Fusion of the Heart Tubes

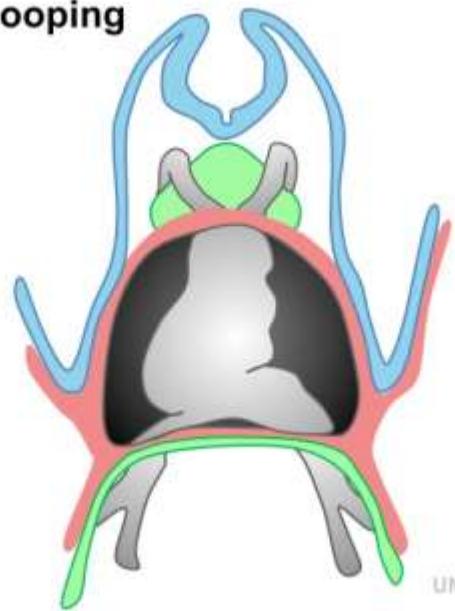

UNSW Embryology

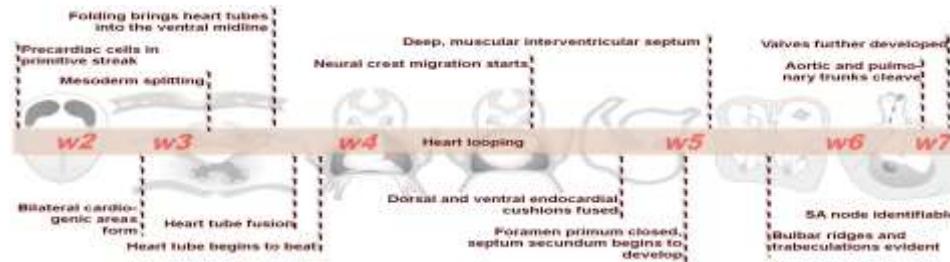

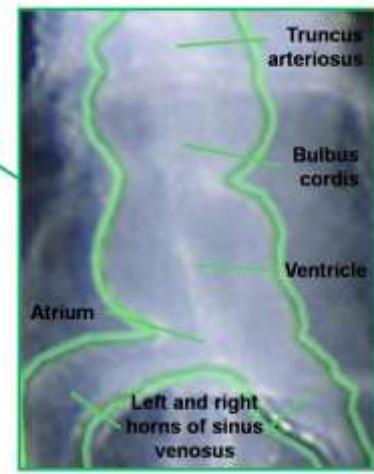

Cardiac looping

Cardiac Looping

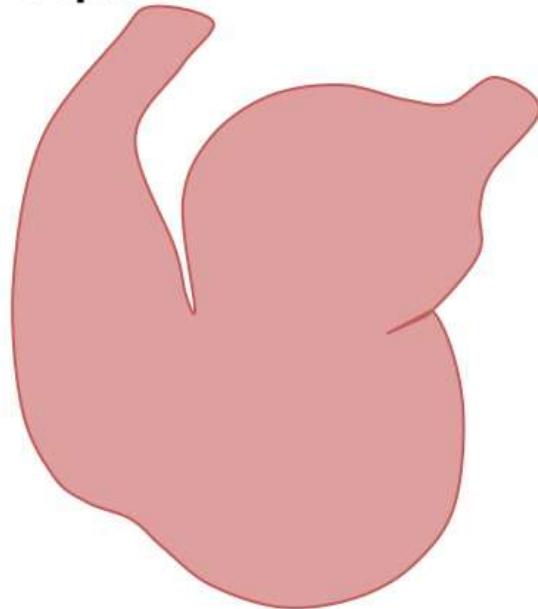

UNSW Embryology

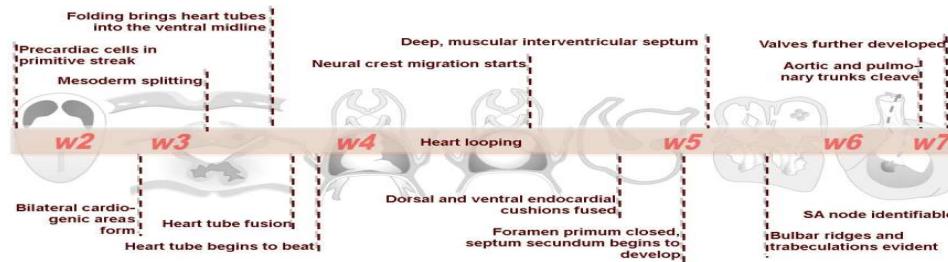

Cardiac septation

AV Canal Septation

UNSW Embryology

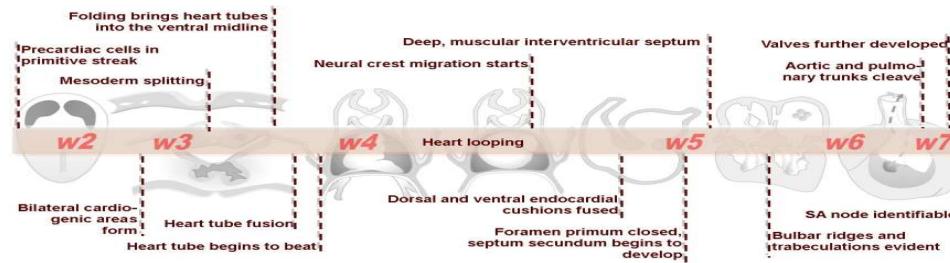

Cardiac septation

Atrial and Ventricular Septation

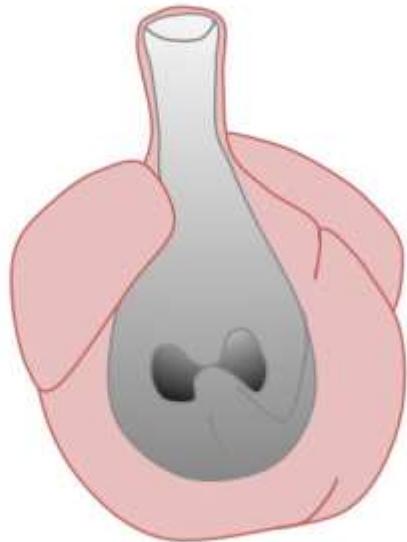

UNSW Embryology

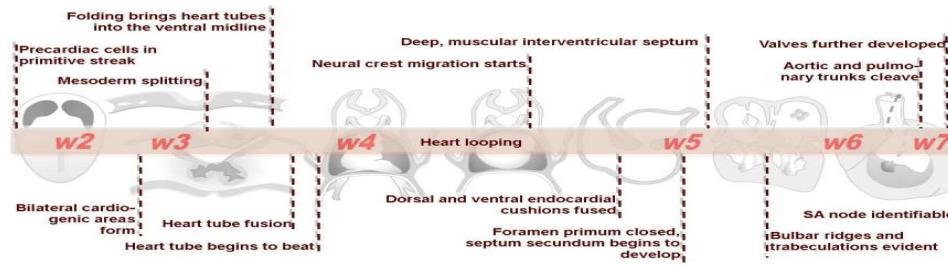

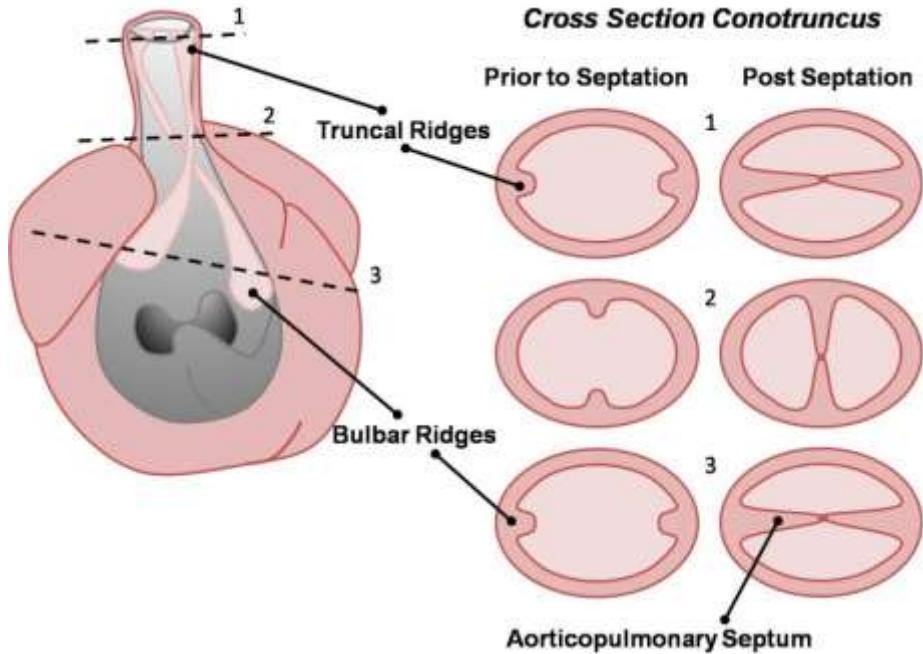

Outflow tract

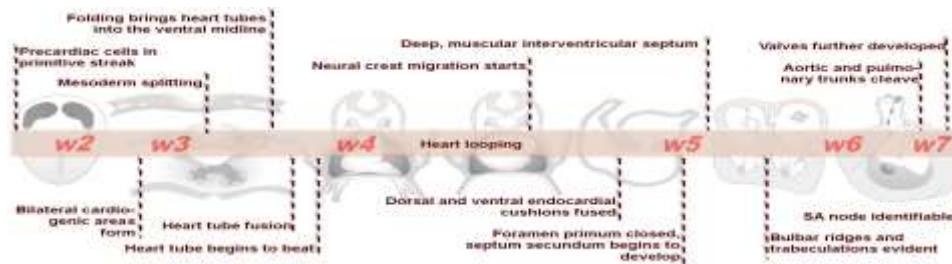

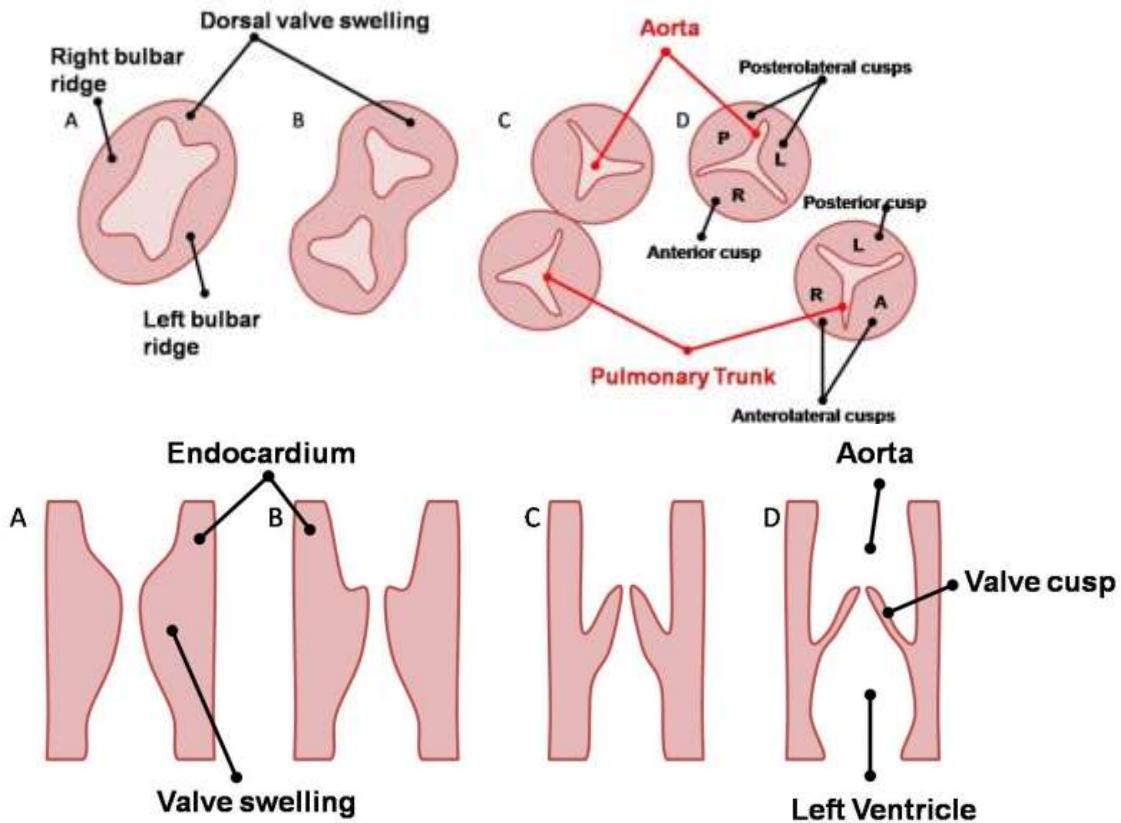

Outflow Tract Division

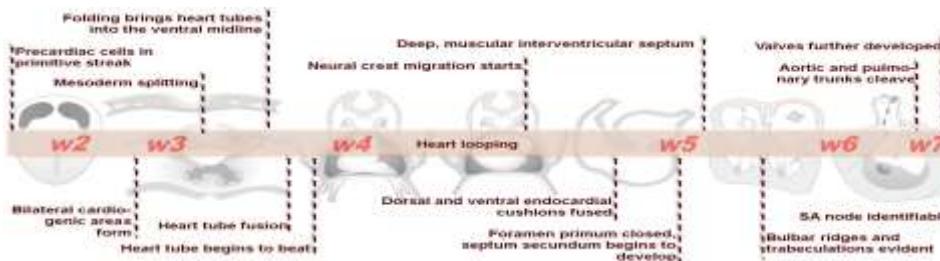

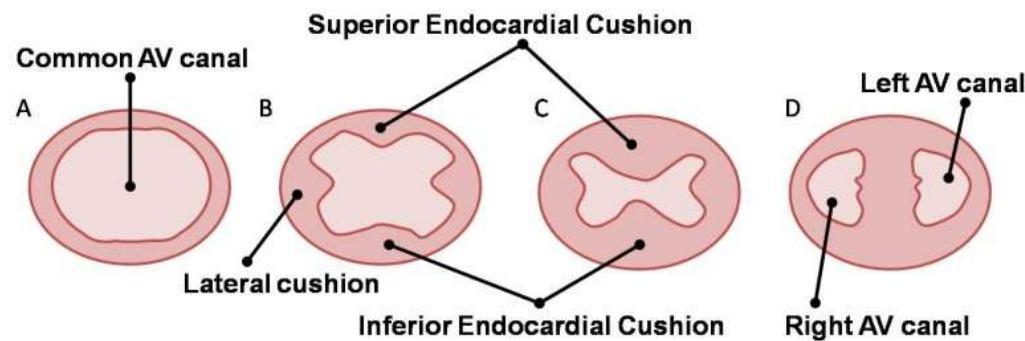

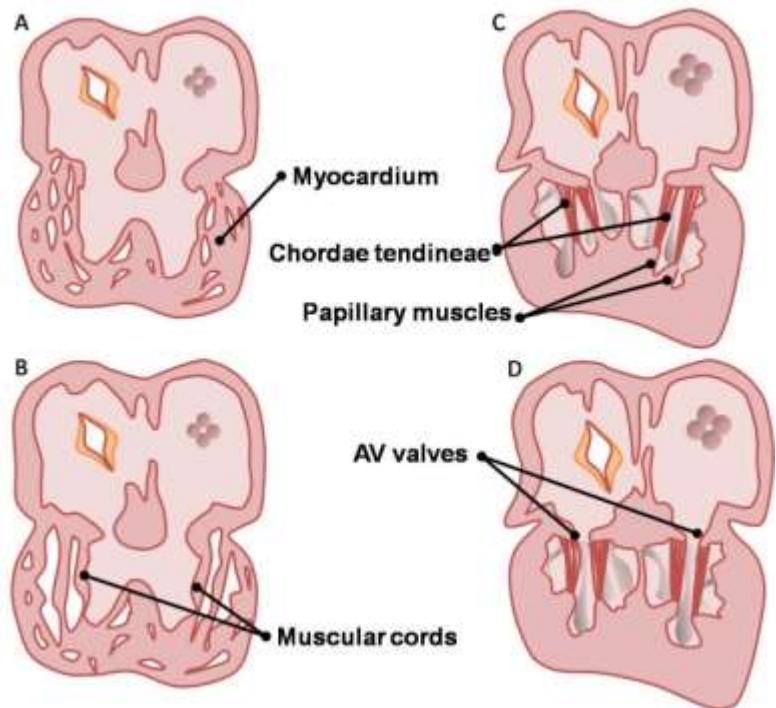

UNSW Embryology

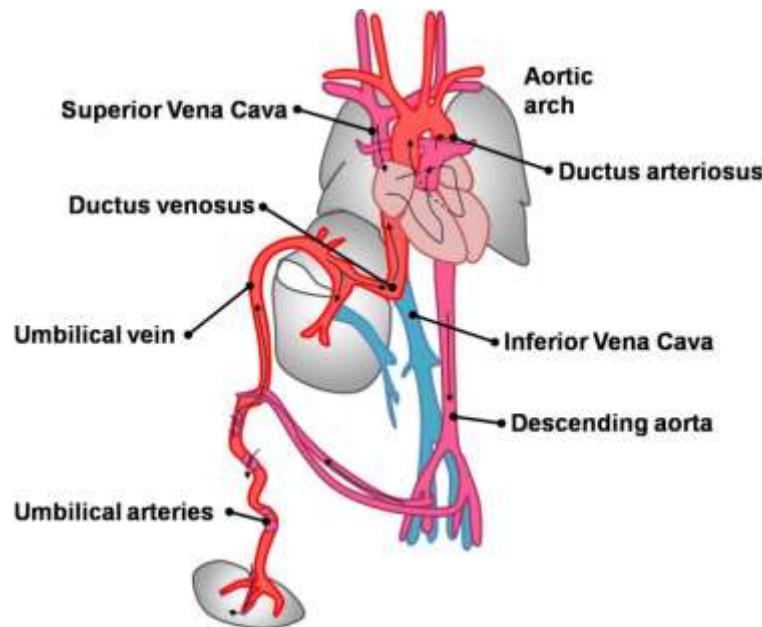

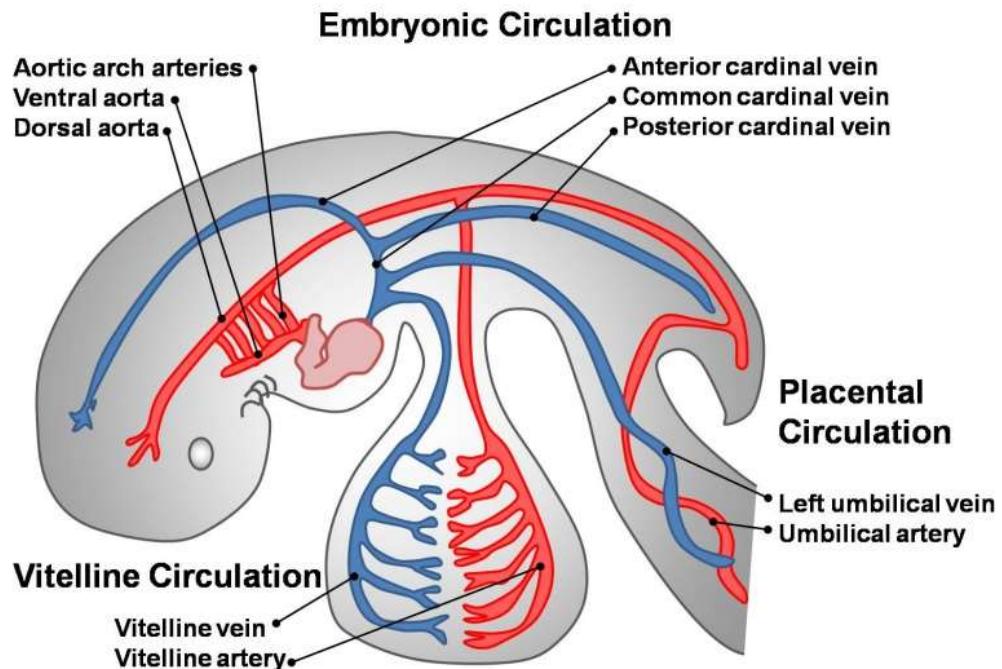

Cardiac valves

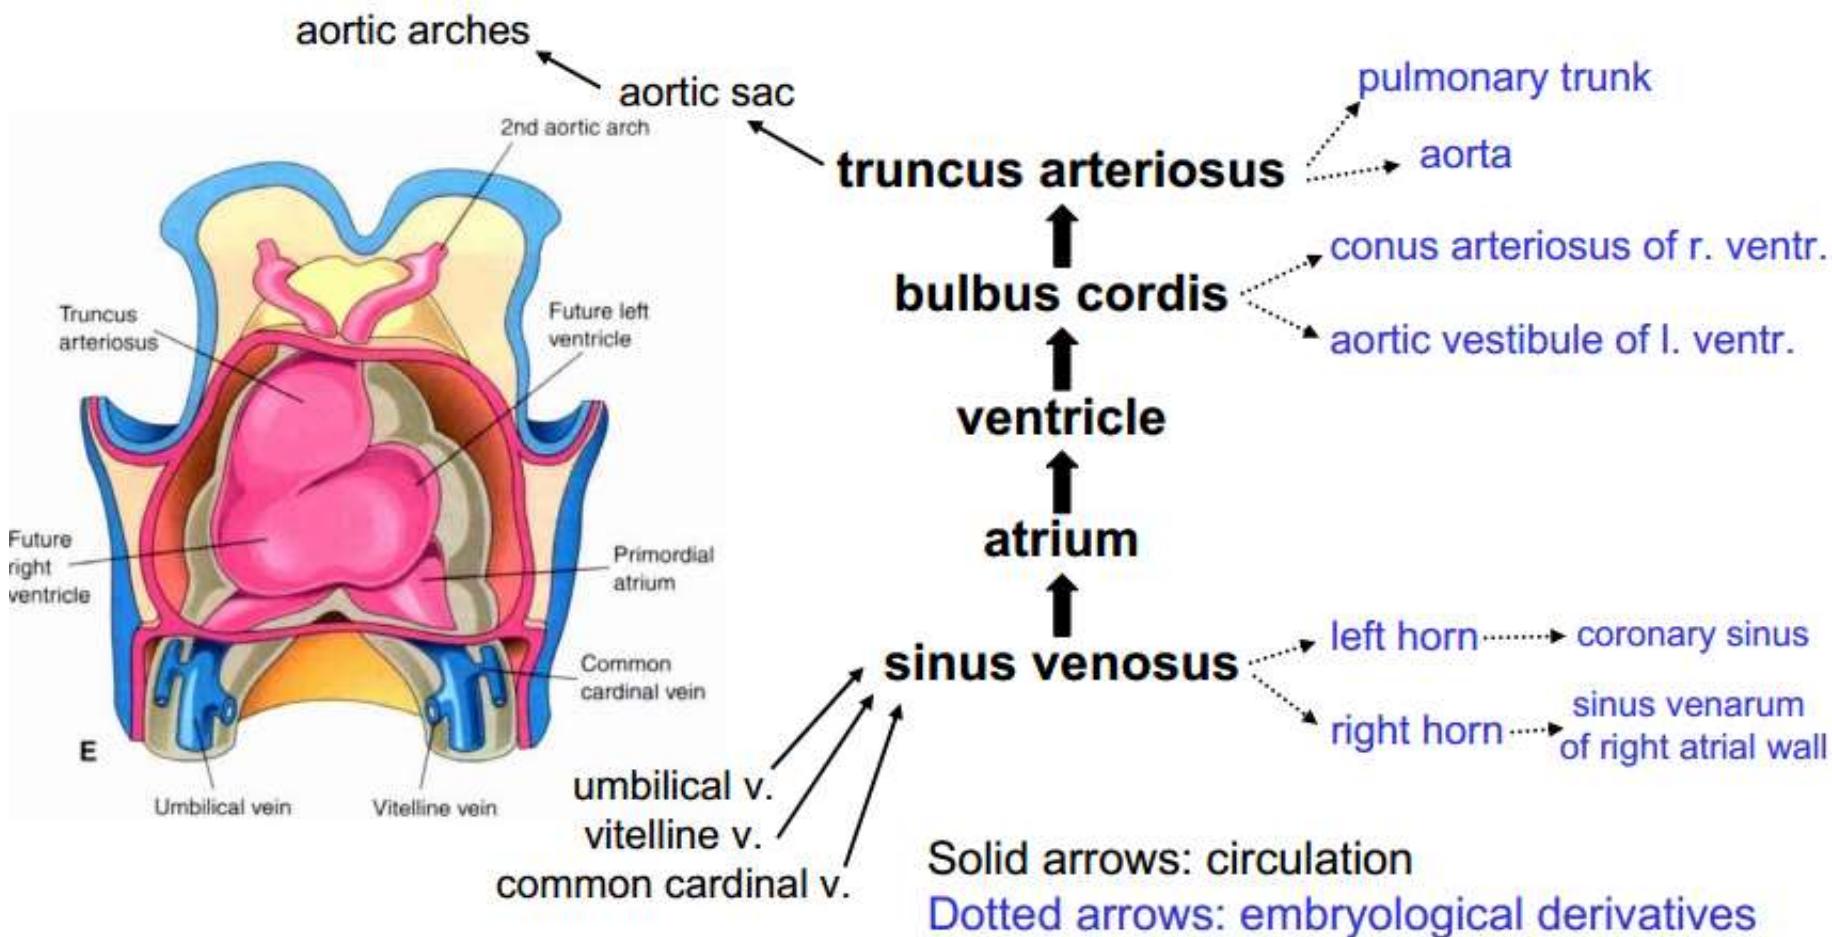

Cardiac valves

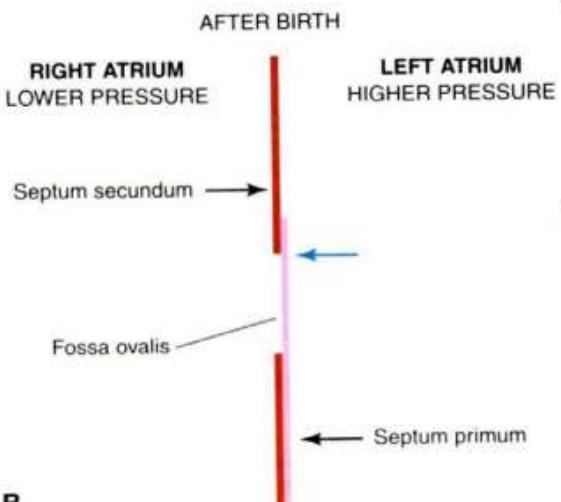

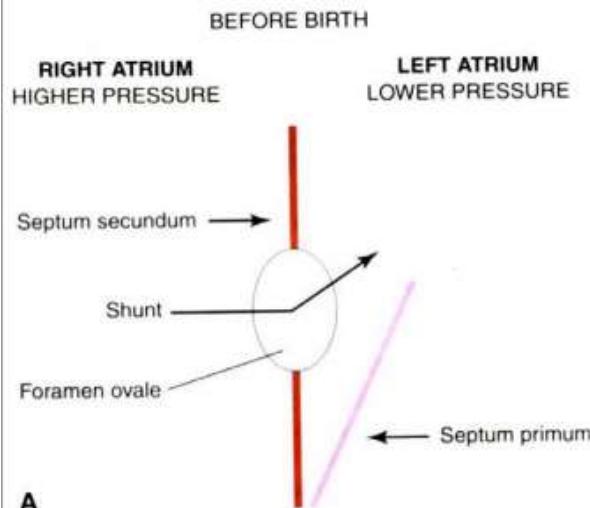

Foetal circulation

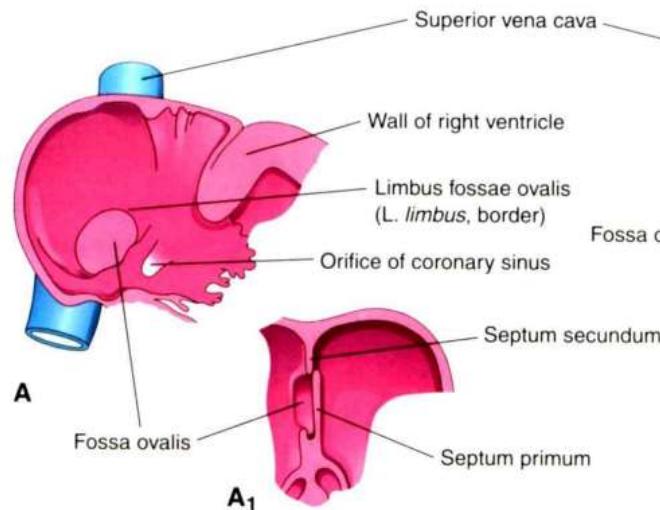

Foetal circulation

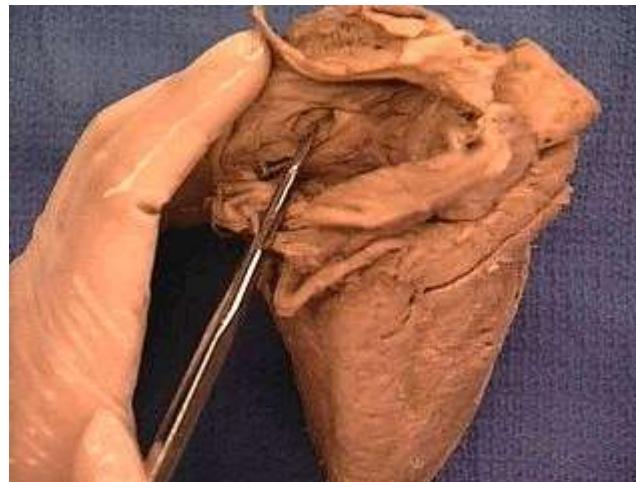

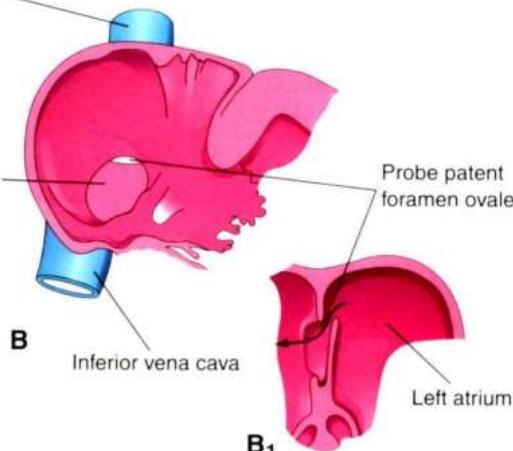

Foetal circulation

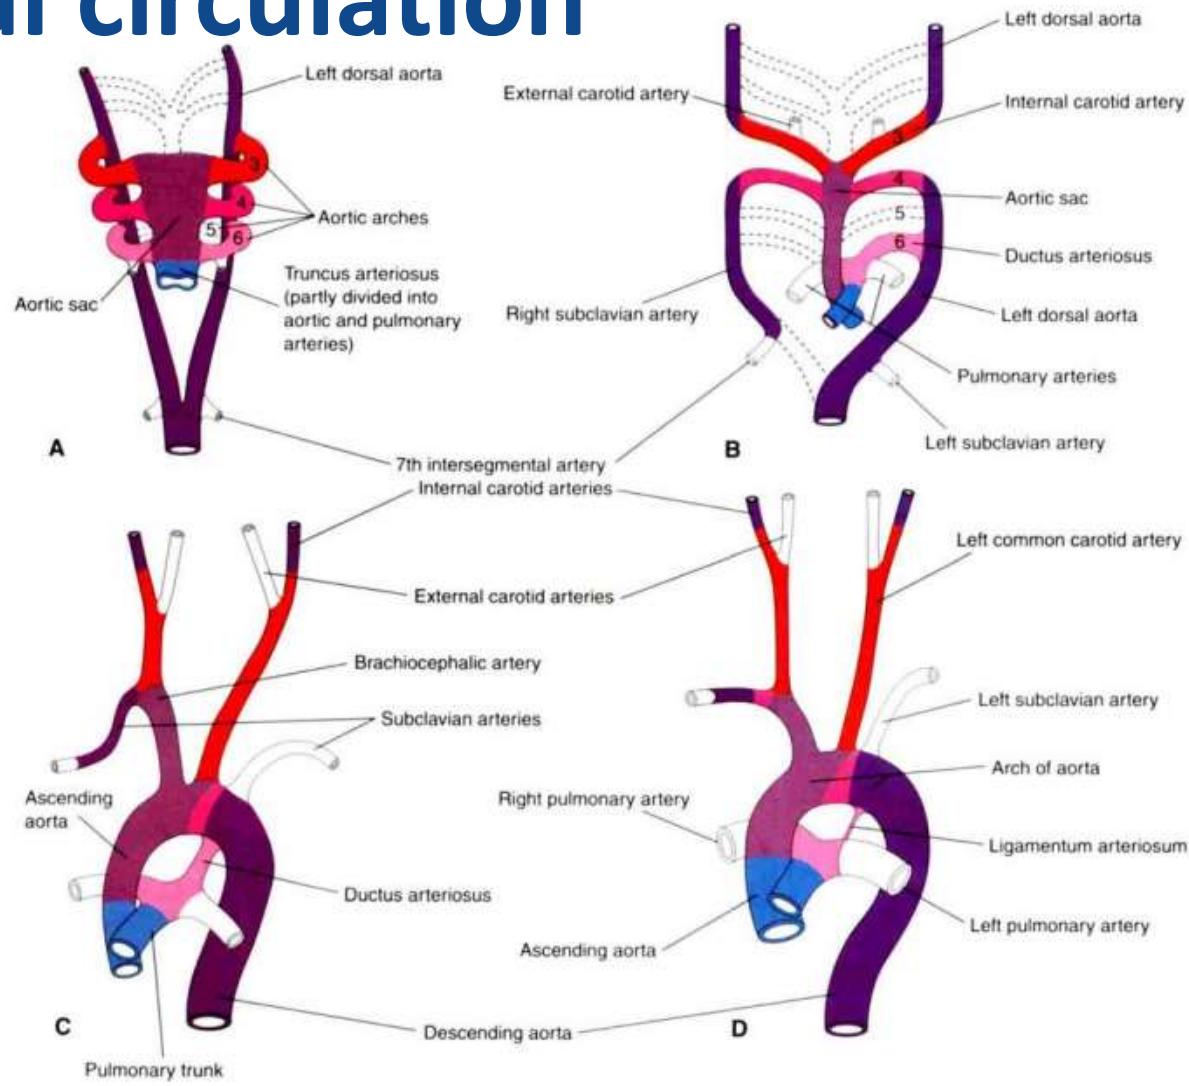

postnatal

probe patent foramen ovale (not an ASD)

Foetal circulation

Congenitale hartafwijkingen
